Sailing Course Taught in English

## MISSION AND OBJECTIVES OF THE SCHOOL

Outdoor activities allow students to have a different perspective on teaching, as they can take advantage of it and develop their potential and ability more. Our aim is to combine teaching with fun.

Encouraging young people to get closer to the world of sailing and water sports is our passion, and we are proud to be able to offer every student a high quality, fun and safe experience.

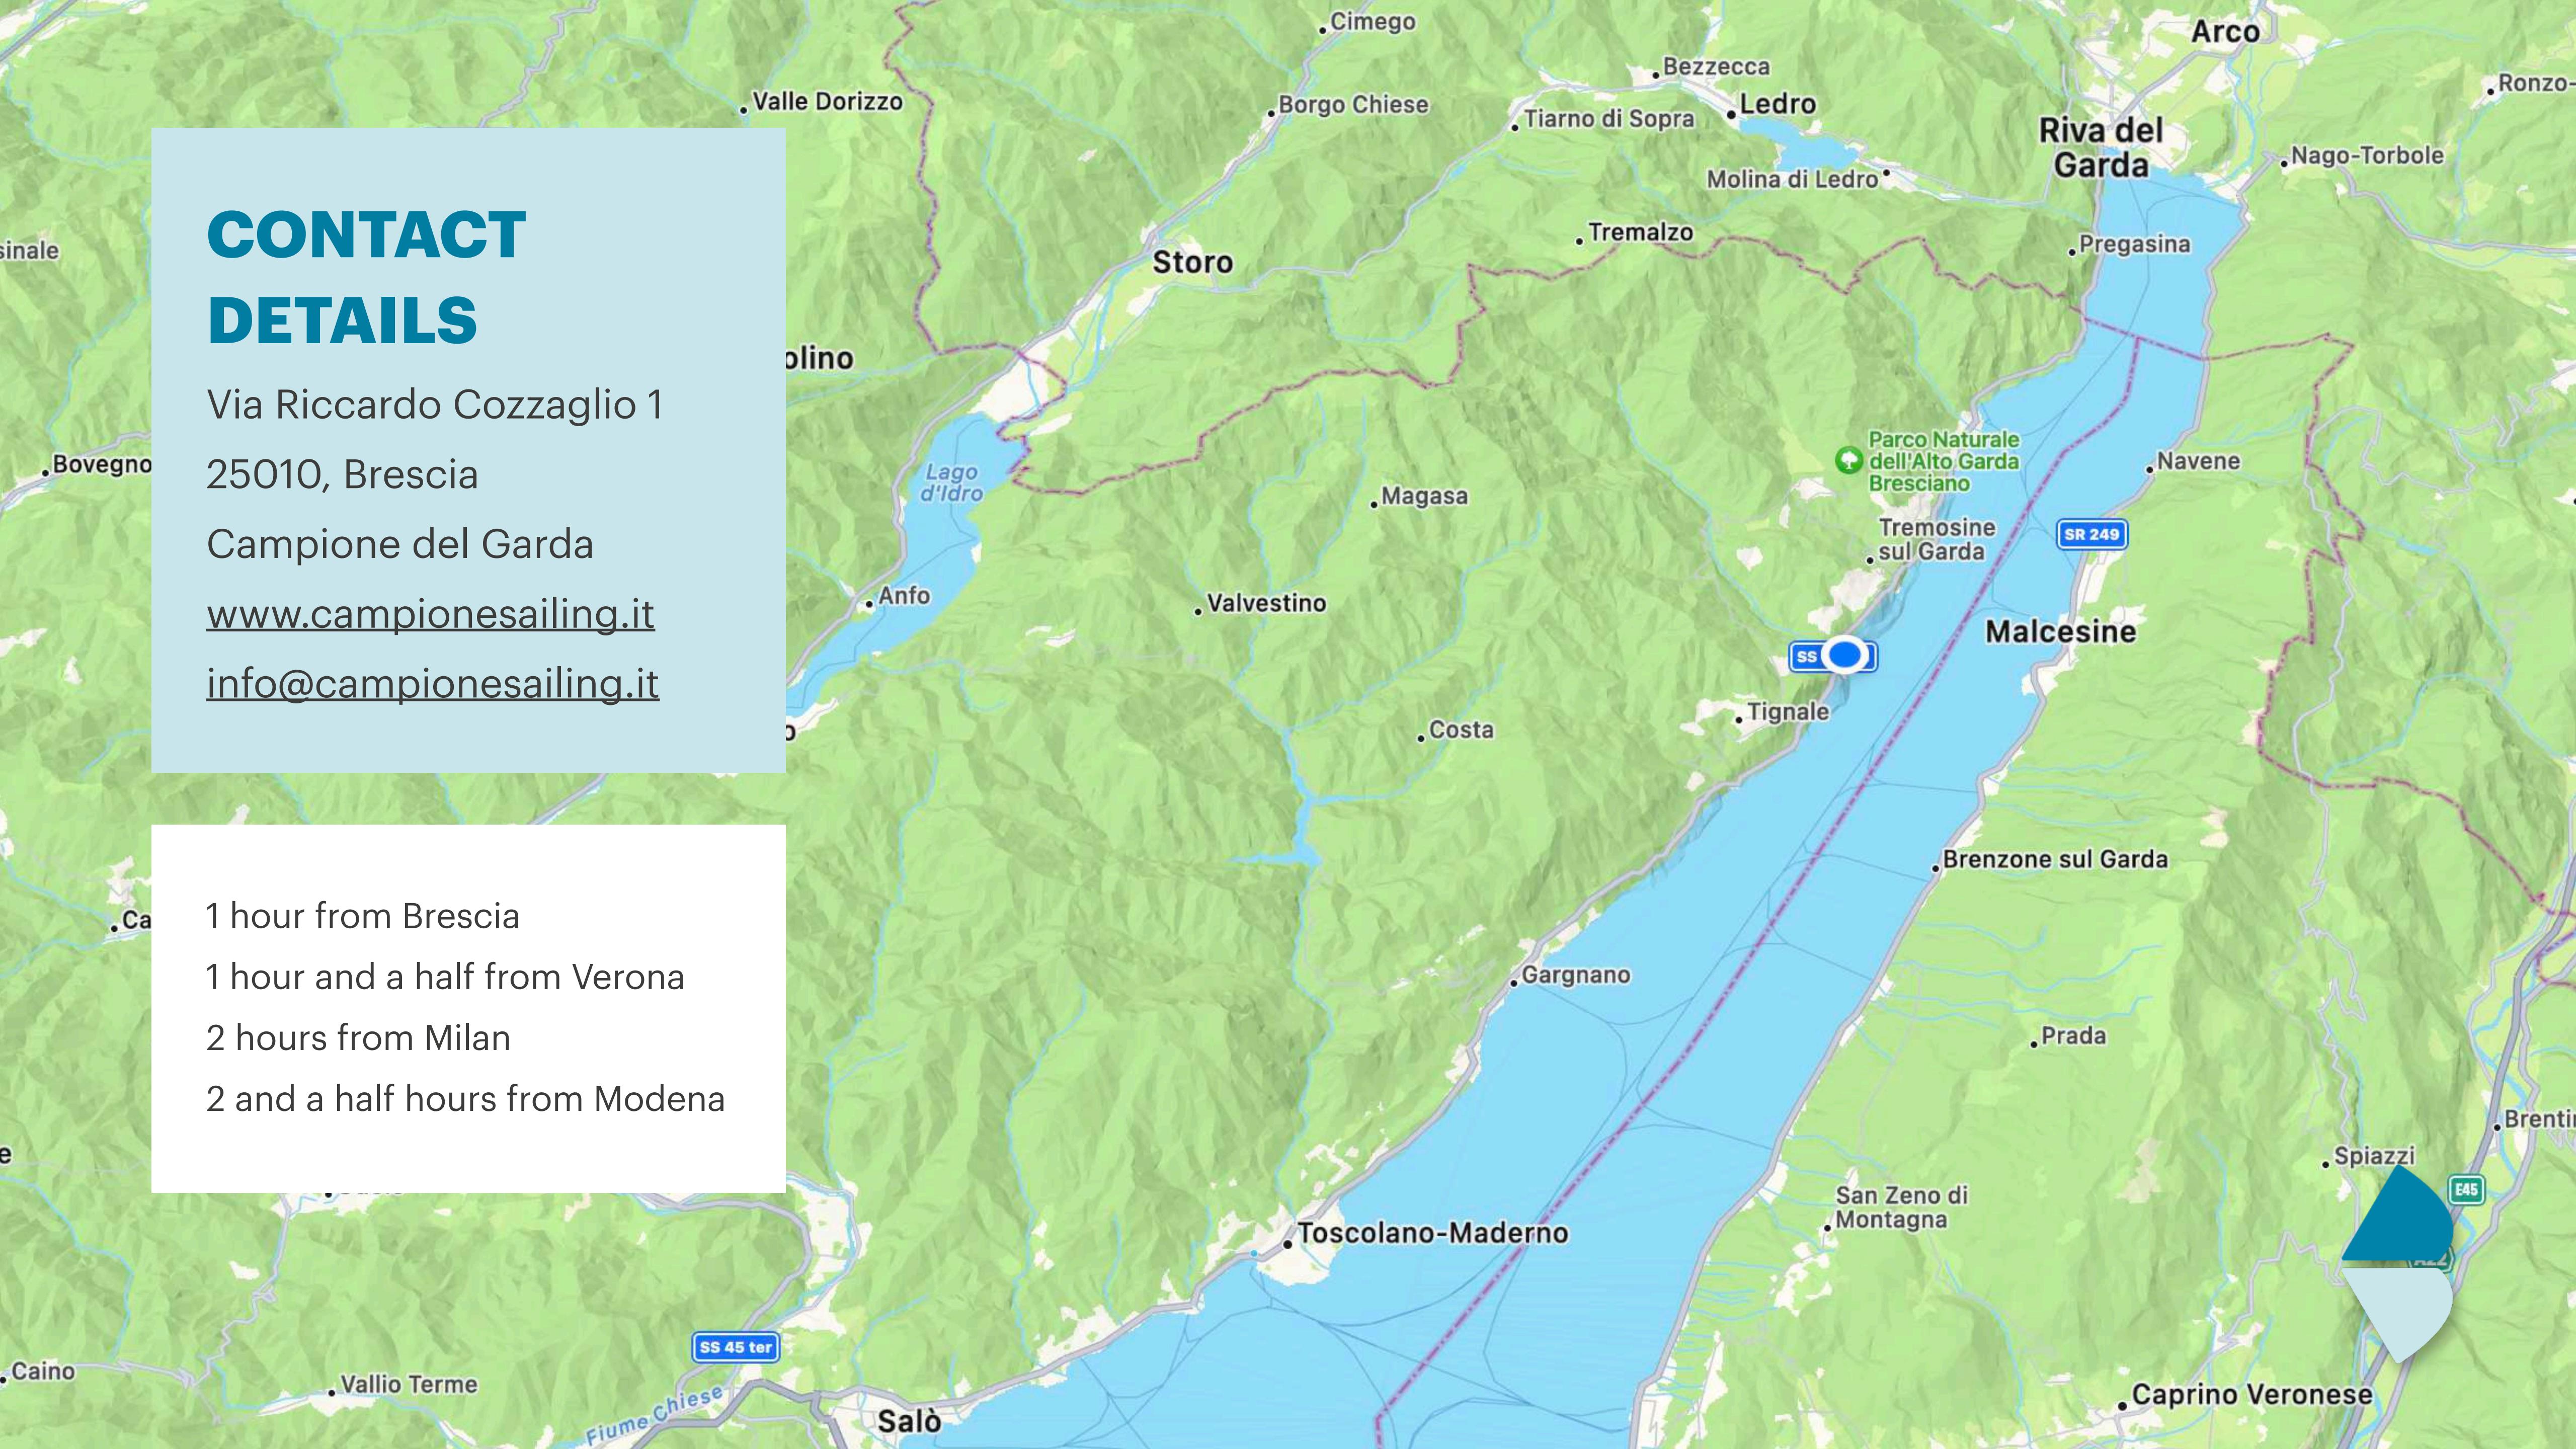

"Our water sports centre represents a mechanism to increase participation in the sailing world and improve the lives of the most disadvantaged or struggling young people. In our centre we believe everyone must have the chance to succeed; to do this we can offer different types of activities: private lessons, residential courses, specialisation courses with racing boats "

2 and a half hours from Modena

# CAMPIONE DEL GARDA

Campione del Garda is located 74 metres above sea level on a small peninsula: it is the only hamlet of the Municipality of Tremosine sul Garda that directly overlooks the lake, which is why it is very loved by those who practice water sports and more.

Thanks to the presence of constant winds, today in Campione sul Garda there are national and international sailing, windsurfing and kitesurfing competitions, a sport for which it is particularly famous.

Campione, for its resemblance to a fjord, was chosen as the location of some film sets, including The International and James Bond.

# DATES 2024

CONTACT US TO CHECK AVAILABILITY

APRIL - OPENING  
NOVEMBER - CLOSING

# THEME

The course aims to teach us the basics of sailing and other water sports, it is an experience of fun and game-sport, trying a wide range of boats and paddle boards.

It's about having fun and learning to love water. The experience tends to be 40% sailing on boats 40% catamarans and 10% SUP, but then we adapt depending on weather conditions

Every day we do about six hours of sailing with experienced instructors, but for this reason we miss excursions and walks to discover the mountains, the forre, the waterfalls and the paths of the surroundings.

Between one boat session and another there are plenty of things to do and activities to practice in the surroundings.

When wind conditions do not allow sailing activities, we dedicate ourselves to other water activities such as sup.

And in the heat of summer it will be fun, unusual and refreshing to bathe in the waters of the lake, which on this side are very clear!

# TYPICAL DAY

- 08:00 Breakfast
- 09:00 Meeting with instructors
- 09:15 Start of the morning session on water
- 12:00 lunch
- 13:15 Afternoon session on water
- 17:00 Shower in the room
- 18:00 Activities ashore
- 19:00 Dinner
- 20:00 Games and entertainment
- 22:00 Lights off

# WHAT TO BRING

As for luggage, it is important not to forget:

Comfortable and sportswear (sleet suit, cotton/jeans trousers, T-shirts, sweatshirts, comfortable gymnastic and beach footwear)

Personal water bottle

At least 2 swimsuits

Sun hats

Protective sunscreen

Personal care needs and towels

The completed and signed enrolment form

The medical certificate

Participants will find at their disposal life jackets and neoprene wetsuits of different sizes

# ROOMS

The rooms are in the same structure that houses the sailing school. We have comfortable accommodations with a rich breakfast buffet to start a day of sport in the best possible way.

All rooms have a balcony, private bathroom with large shower cubicle and hairdryer, comfortable sommier and Dorelan mattresses.

# RESTAURANT

Young sailors will have breakfast, lunch and dinner in our Restaurant & Pizzeria where they can taste pizza, homemade pasta, fresh salads and other lake and mountain specialties, vegan or vegetarian dishes.

Obviously the lunch menu is designed to be immediately ready to play sports while the dinner menu is more full-bodied to be able to recover the energy consumed in the water.
